Project cover

Purpose: check the first page in a merged PDF.

Merge this file before the two-page sample appendix.

Expected output: this page, then appendix pages 1 and 2.

INPUT A - PAGE 1

Synthetic demonstration file. Not a real invoice or customer document.

Designed and developed by FreNiMi | frenimi.com/tools/

Appendix: checklist

1. Keep source files unchanged.
2. Merge the cover before this appendix.
3. Open the output and confirm all three page markers.

INPUT B - PAGE 1

Synthetic demonstration file. Not a real invoice or customer document.

Designed and developed by FreNiMi | frenimi.com/tools/

Appendix: final page

This should become page 3 of the merged example.

Check that the text stays readable and selectable.

A successful sample does not prove every PDF will work.

INPUT B - PAGE 2
